LIMA, OHIO, MONDAY EVENING, APRIL 2, 1906.

FOUR WEEKS 25 CENTS.

THEY RIDE ASTRIDE; WOMEN ARE ARRESTED.
El Paso, Texas, April 2.—Officer Delgado created a sensation yesterday by arresting two women, Laura Anderson and Emma Brown, and charging them with riding on horseback astride. The police thought they had the laugh on him, but the officer turned to the city ordinance, with which every officer should be familiar, and showed that the council had made such an act a misdemeanor. The cases were continued in the city court.

Zion Bank declines to honor his drafts, March 11, 1906.
Overseers determine to ignore his orders, April 1, 1906.

Chicago, Ill., April 2.—The thousands of Zion City chose between John Alexander Dowie, first apostle, and Wilbur Glenn Voliva yesterday afternoon, and Voliva was unanimously elected as the leader of the people.

Dowie was virtually read out of the church he had founded and the thousands deposed him as the head of the affairs of the city as far as they were capable.

They charged him with mismanagement and with wilfully squandering their money that had been entrusted to him.

They were charitable as they condemned, however, for they refused to hold that he had knowingly erred and charged he was insane.

The moment was not a spasmodic one. It was not led by the dissatisfied and unknown. It had all the strength that the men prominent in the business and religious life of the

city could place behind it. Voliva, the man brought from Australia by Dowie and placed in temporary charge of Zion City, led the revolt.

Standing by his side and fighting against the man who for years she had trusted and followed, stood Mrs. Jane Dowie, wife of the first apostle. Gladstone Dowie, the son, was killed with the insurgents and when his father had been deposed the young man promised obedience to his successor. And all the dignitaries of the church were allied with the cause which Voliva represented.

Victory for Speicher.

Among the foremost opponents of Dowie stood John C. Speicher, who but a few weeks ago had been reviled and deposed by the man who styled himself a prophet and the mouthpiece of God. It was a glorious day for Speicher, too, for he was returned to the fold and restored to all the honors that were his before he won the enmity of Dowie.

GROUND Just North of the Penna Passenger Station

Was Purchased Saturday By the Railroad Company for What Use Is Not Made Public.

The property just north of the Pennsylvania passenger station, and just west of the C. H. & D. railroad, for so many years occupied by dyes of the worst character, has been purchased by the Pennsylvania railroad company, and the consideration is given as \$15,000. It is valuable ground for the railroad company, but just what improvement the company has in mind is not given out.

SEVENTEEN Coaches Were Necessary to Transport the METROPOLITAN OPERA COMPANY FROM PITTSBURG TO CHICAGO YESTERDAY.

Yesterday afternoon about one o'clock a special train passed through this city over the Pennsylvania railroad. The train was made up of seventeen cars and contained the members and baggage of the Metropolitan Opera Company, which was enroute from Pittsburgh to Chicago. The company comprises 350 people, and by the way, Gus Bond, a former Lima man, is the stage manager. The Metropolitan is a Grand Opera Company and after this next week in Chicago, will go direct to San Francisco.

BANK TELLER IMPRISONED.
Had Been Stealing For Period of Five Years.
New York, April 2.—Joseph P. Turney, for thirty years note teller in the National Bank of North America, was committed to the Tombs this morning by Magistrate Moss, without bail, on a charge preferred by Bank President Curtis, of the larceny of \$34,000. The peculations are said to have extended over a period of five years.

ALL FOOLS' DAY Its Origin Has Been Lost

SAID TO BE A CUSTOM WHICH HAS SURVIVED THE TIME OF THE FIRST ARYAN PEOPLE.

A queer custom which is observed April 1st is that of "All Fools' Day." This custom is one of extreme antiquity, its origin being lost in the dawn of time. The most authentic explanation of it is that it is a custom of the first people of the Aryan race and has been handed down as a number of our children's games have. This conclusion is arrived at from the fact that the Hindus celebrate a similar day at the close of Huli, which falls about March 31. The Hindus are members of the Aryan race and have held on to more of the original customs of the race than any other branch.

No mention can be found of a celebration of the day in England until the eighteenth century. It is thought that the custom of observing it was imported from France, where the festival is celebrated under the name of "Poisson d'Avril."

WANTED

In Urbana for Grand Larceny—Police Make a Good Catch Yesterday.

Amos Jackson, colored, wanted in Urbana for stealing a watch, chain and ring, was arrested in this city on Main street, near Wayne street yesterday morning. The Urbana authorities were notified and this afternoon Chief of Police McNear came after the prisoner.

Born, yesterday, to Mr. and Mrs. Rohn, of west Wayne street, a nine pound baby boy.

FIGHTERS ARRESTED.

Al Worline, proprietor of the Worline saloon at the corner of Market and Union streets, and Al Wade, were arrested early this morning, charged with fighting. Worline was arraigned and pleaded not guilty and his case was set for hearing at 9 o'clock tomorrow morning. Wade was too drunk to appear and is still below.

Many Follow the Example of Robbins to Avert a Coal Strike.—President Advised Not to Interfere Now—Hardest Battle Expected to Be in Ohio and Southern Illinois.—Owners in Other States Trying to Gain Peace.

Washington, April 2.—It was announced officially at the White House after the Cabinet meeting, that the President had not decided upon any course of action regarding the threatened coal strike. If the President follows the advice given him by members of the Cabinet he will not interfere at this time.

In most of the above mines certain conditions covered by the contract the miners offer are alone in question. The amount of pay is not disputed.

In Ohio the mercantile interests are against any settlement with the large operators in the southwest in the south. Many of the great operators, however, have given word that the strike will be acceptable. Included in this number are the mines supplying brick plants, waterworks, etc. Mines about Akron, Canton, Urbana, and several in the Hocking Valley field will likely sign.

The Ohio miners opposed the plan for some agreement by districts, realizing that the burden of the strike would rest heavily upon them. Ohio promises, with southern Illinois, to be the storm center, and the negotiation in the Ohio field is expected to last longer than elsewhere.

President Ohio Mitchell of the United Mine Workers declares today that the ranks of the operators have broken.

The strike event in the southwest of the miners' intervention that all operators who agree to pay the 1905 scale would be permitted to operate their mines. Robbins immediately signed the agreement and the first big victory in the pending strike struggle was won by the miners.

Indianapolis, April 2.—Expressions of willingness to sign up agreements for the 1905 scale are being received from individual coal mine operators by union delegates still remaining in the city. Besides the Western Pennsylvania mines under F. L. Robbins' control, the Iowa operators have agreed to the scale.

It is practically certain that the operators in the Northern Illinois field will sign and the great Detroit mines in the southwest will make a contract. Trouble is expected with the Southern Illinois operators.

As to the Southern Indiana field, three operators at Evansville will sign.

Assurances have been given that in the Kanabaw, Salt of Western Wear Virginia operators, whose output totals about 8,000,000 bushels, will shortly come in under the scale.

Michigan Also in Line.

The Michigan operators also are reported almost ready to sign the 1905 scale.

Winter's Work of Ohio Legislature in Brief

FIFTY YEARS OF TELEGRAPHY.

Within 50 years—in the time of
hundreds of thousands of men yet
living—the telegraph has passed
from a toy into one of the greatest
of the world's institutions. The 50th
anniversary of the Western Union
falls on April 4.

So necessary has the telegraph be-
come as an instrument and a force in
modern civilization that it is almost
impossible to realize that up to a
half-century ago the world got along
without it.

Fifty years make a short thread
in the history of the world, yet the
last 50 years have brought more
marvelous progress than any previous
50 centuries, and the very heart
of this progress has been the tele-
graph.

Modern man may laugh at the
query of Job—"Canst Thou send the
lightnings to give me answer?"—for
today the answer "Yes" is flashed
around the earth as quick as thought.

It was on April 4, 1856, that the
Western Union charter was granted
by the New York legislature. At the
beginning it was a local concern, with
\$500,000 of wire. It acquired ex-
tensive into New York city and Phila-
delphia in 1863. In 1866 it had
become a national, controlling com-
pany, with over 75,000 miles of wire.
Today it is a giant corporation, with
a mileage in wires of 1,184,457, and
with a history which is a veritable
romance of expansion, extension and
consolidation.

The history of the Western Union
is by no means the history of telegraph-
raphy complete. In 1851 there were
50 telegraph companies in the United
States. In 1906 there are two—the
Western Union and the Postal.
There is no denying that consoli-
dation has contributed immeasurably
to the promotion of the telegraph
service. The average toll per mes-
sage in 1866 was \$1.04; it was \$1.6
cents in 1905.

But this is not all that is to be
said on the subject of telegraph con-
solidation. While the Western Union
was training for its giant pace in
1870, Great Britain turned its tele-
graph into a government and postal
institution. Consolidation was the
word on both sides of the Atlantic,
but the methods were vastly differ-
ent. The average toll for a message
in Great Britain today is only 15
cents.

The United States has built up
a gigantic corporation privately owned.
England has built up a gigantic
public institution.

The people of this country pay
\$1.6 cents per message, which has
not diminished in 50 years, in order
to pile up a profit of \$7,100,000 a
year for the corporation. England
pays 15 cents a message, and the pro-
fit goes into the nation's treasury.

If there is anything to be learned
from experience, the development of
telegraphy in the United States and
in Great Britain ought to present
some practical lessons.

Gossip of the Day

"Obstructionist" is a new role for
Representative Bassett, and it's no
wonder the clothes ill-fitted him.
His tactics to defeat the Bever bill,
which had been introduced at the re-
quest of Attorney General Bliss in
the prosecution of unlawful combinations
were severely criticized by his col-
leagues and will surprise many of his
constituents. Unfortunately Mr. Bas-
sett could not advance a sound ar-
gument to sustain his position, and
he was at last persuaded to desist.

That the Republican party can be
dependent upon to do its own house-
cleaning after a warning from the
people is demonstrated by an analy-
sis of the eleventh annual report made
by the Municipal Voters' League of
Chicago. Heretofore there has been
no essential advantage to either party
in the league's recommendations
sometimes the majority of the ac-
ceptable candidates coming from the
Democratic party and sometimes
from the Republican party, the pre-
ponderance of either being marked.

But this year, of the 24 recommenda-
tions, seventeen are Republicans and
only seven are Democrats.

Local billiard players are antici-
pating an "all-out" battle between
Billie and Young Hoppe, the
two best and the only players who
play over Virginia and Missouri in
the hills to come, and it is
hoped the "war" will take him on
an 18 inch bank line match. Even
the most enthusiastic admirers of
Hoppe do not think that he has yet
reached the stage of perfection
where he can be expected to hold his
own against the great champion, but
they would like to see an oppor-
tunity to make an unopposed com-
parison. Besides they argue that
every contest of the kind is of great
advantage to the young man, giving
him an experience that can be learned
in no other way. Many really
strong billiard players are weak in
tournament play, because they be-
come nervous before a crowd. Nothing
but persistent effort can cure
some players of the "rattles."

Olivia Roberts, the "Ivory queen"
of St. Louis, has not lost her influ-
ence even if she is a convict in the
Missouri penitentiary. She brazenly
acknowledges that she is a thief and
that her place was a robbers' den,
and yet she continues to cast a spell
over many of the wealthiest and
most prominent business men of the
Midwest City. Small wonder that
reformers become discouraged
when they are brought face to face
with such a situation.

THE "BARK" OF SCORPION.

The Oil of Pine Tree is supposed to
be the bark of Scorpion. It con-
tains great medicinal properties and
was regarded with the utmost esteem
by the ancients and to the present
day is highly prized by the people
of the East.

In 1850, a noted authority on
diseases of the throat and lungs,
who established a camp for con-
sumptives in the Pine Woods of
Maine, and whose remarkable cures
there have attracted great attention
from the medical world, says that
his entire treatment consisted of
fresh air, nourishing food and the
Pure Virgin Oil of the White Pine
Trees mixed with Whisky and Gly-
cerine in the following proportions:
Virgin Oil of Pine (Pure).... 1/4 oz.
Glycerine..... 3 oz.
Good Whisky..... 8 oz.

Used in teaspoonful doses every
four hours.
Dr. Leach claims the above mixture
will heal and strengthen the
lungs, break up a cold in twenty-
four hours and cure any cough that
is curable.

The ingredients can be secured
from any good prescription druggist
at small cost and can be easily mixed
in your own home.

Inquiry at the prescription depart-
ment of a leading pharmacy elicited
the information that Virgin Oil of
Pine (Pure) is put up only in half-
ounce vials for dispensing. Each
vial is securely sealed in a round
wooden case with engraved wrapper
with the name—"Virgin Oil of Pine
(Pure)"—plainly printed thereon.
Only the cheaper Oils are sold in
bulk, but these produce nausea and
never effect the desired results.

SWINDLERS

Never Let Up in
Their Nefarious
Work

SOME BAD CITIZENS COMPEL- LED TO PAY NOTES FOR \$250 WHICH THEY HAD NEVER BEFORE SEEN.

Swindlers and grafters never let
up on their work. One of the smooth-
est swindles which is now being
worked in different sections is told
by a travelling man. He states one
instance of a scheme in which a
farmer had paid \$250. The scheme
of the grafter was in going to some
prospective purchaser where he
stated his desire in introducing a
hanging lamp in that locality. The
original selling price of the lamp
was over five dollars and cost the
agent five dollars. The agent was
assured that if he could get the sale
started in that vicinity it would be
the means of placing others there.
His proposition to the purchaser
was in placing a lamp there for
\$250, providing the man would use
his influence in having the neigh-
bors purchase a lamp. The pur-
chaser in this case, agreed to this
part and signed a statement which
the agent made, explaining to his
company why he had let the buyer
take the lamp at \$250. The pur-
chaser signed the agreement and the
agent left the place, promising to
call in the near future. At the time
when the agent was supposed to re-
turn, instead a note turned up
against the buyer for \$250. As
there was no way out the note was
paid.

POLICEMAN IN A NEW ROLE

**MAKES LOVE TO A GIRL 'TIEF
AND THEN ARRESTS HER—
WERE TO DO THE TOWN**

Rat Annie Appeared in Clothes of
Employer and So Was Sent to Jail.

New York, April 2.—Policeman
Tobin, of the East Fifty-first street
station, is what his companions of
the barracks choose to call a "lady
killer." He possesses a wonderful
moustache, black eyes and a frock
coat.

Tobin has been much interested
in a new flame lately. She was An-
nie, the pretty maid employed in a
boarding house at No. 142 East Fort-
y-fifth street conducted by Mrs. El-
len Clone. Annie and the policeman
were getting on very well when Tobin
suggested that they take a stroll
and also get a little supper.

"We will put on our good clothes
and show 'em what real society
folks are," suggested Tobin. Annie
agreed. Tobin was at the basement
door at 8 o'clock last night, and
Annie appeared, radiant in wonder-
ful clothes. Tobin himself gasped
at the impression. But very much
Annie's surprise the policeman be-
suddenly threw his arms about her,
held her, and called in through the
grating to another servant.

"Tell Mrs. Clone to come quick-
ly."

The girl struggled and screamed,
but the policeman held her, and
when Mrs. Clone appeared, he held
the fair maid out at arm's length and
pointed to the finery she wore.

"Yes, that skirt is mine. It cost
\$65," said Mrs. Clone. "And for
goodness sakes! she has on my pet-
ticoat, too. And here is that crepe
de chine that I missed three weeks
ago."

Mrs. Clone made a careful inven-
tory, and when she had finished
there was not much of the finery en-
veloping Annie that her mistress did
not claim as stolen property. The
girl, who is Annie Payne, was in-
conceivable at the charge of theft,
but the worst blow was to find that
the handsome man in fine clothes
was a detective in disguise. She
was made a prisoner in the East
Fifty-first street station. Tobin has
been investigating the thefts in the
boarding house for several weeks,
and his ruse to get Annie to dress
up for an evening out had been
planned to catch his suspicion that
the maid was the thief.

tute, but Doan's Regulents gave just
the results desired. They act mildly
and regulate the bowels perfectly."

Oil Strikes

Excite Town

RICHLAND COUNTY IN THE MIND OF MANY BIG OIL GUILLS.

MANY LEASES TAKEN IN THE BUTLER FIELD.

Mansfield April 2.—With two wells already producing the finest grade of oil in the country, and the third one hourly expected to fulfill the expectations created when the sand pump brought up oil in Clinton sand early this week, the Butler oil field in the southeastern part of Richland county, is arousing new interest among oil men and speculators all over the country.

Months ago nearly all the land in the vicinity of the now famous Mengert well was leased, but since its wonderful development leases have been made in all directions from Butler and this community is in the throes of a constantly increasing oil excitement.

The real interest dates from April of last year, when on the farm of Marion McClelland, one and one-half miles southeast of Butler, a half-acre tract was leased to the Standard Oil Company, who intended to establish a glass factory, but sold their lease to the Standard for \$7,000. Three other wells are being drilled on the Mengert farm, where oil was first struck, and it is expected that two of them will come in this week. This work is being done by the owners of the first well. The Standard is preparing to drill three other wells, and a Fredericktown company also is constructing derricks for a well.

From Butler and the immediate vicinity where oil conveyed from the wells by a pipe line and poured into oil tank cars on the Baltimore & Ohio railroad is sold at \$1.58 a barrel, the excitement has reached this city and a number of oil companies have been organized here, not only for operations in the Butler field, but to continue the work of drilling for oil in this vicinity, where it was abandoned twenty years ago, but was abandoned without results before a depth had been reached necessary to strike the Clinton sand if it underlies this territory. Mansfield is in a line with territory, both to the north and south of the city, that has produced oil and gas, and this time the drilling will not be abandoned until it is fully determined whether the city is in the oil belt.

While it is estimated that fully \$2,000,000 of Mansfield capital has been invested in mining operations in the west, comparatively little has been expended in oil and local investors are just beginning to realize they may have been overlooking great opportunities nearer home. Just now oil is the one topic of conversation, and solicitors for new companies in that line are doing a big business.

DENIES

The Allegation That Chappell Has Purchased the Franchise of the Interstate League Team at Saginaw, Mich.

An evening paper Saturday published the statement that C. H. Chappell, secretary of the Lima ball team, had purchased the franchise of the Saginaw, Michigan, team. This was erroneous, and Mr. Chappell will continue as one of the staunch supporters of the Lima aggregation.

(Muncie Star.)

Fair weather only is needed and everything will be in readiness for the work of converting the vacant site located immediately west of Walnut street on Ohmer avenue into a handsome ball park for the use of the Muncie base ball club of the Interstate league. Manager Paige, of the Muncie club, who has been busily engaged for the last few days in having the leases for the grounds signed up, said last night that in all probability the work for constructing the amphitheater will be started this week. A contractor has been employed by Mr. Paige and orders have been given to rush the building with all possible rapidity, in order that the park will be completed two weeks at least, before the opening of the season.

Manager Paige will expend about \$2,000 on the building, and a sum of a few hundred dollars will be appropriated for the building of a high board fence and grading of the grounds. The players, most of whom have been signed, will receive orders to report for practice towards the latter part of the month, and by that time the new uniforms which were recently ordered will have arrived.

A few more "horsehide knights" are to be signed, although most of the important positions have been filled. The pitching and receiving department is especially strong, but are to be further strengthened.

Schedule of Games.

The Star today publishes the first correct schedule of the games since the decision was reached to begin the season one week later than was first intended. As can be seen the schedule is a very agreeable one and its author evidently gave careful attention while preparing it. The mileage has been reduced as low as possible and the intervals of the appearance of the clubs in the various cities will no doubt produce much interest among the fans.

Until the present dispute over Kalamazoo is settled some of the managers and officers have busy days in store. It has practically been decided to transfer the Kalamazoo franchise to Lansing and as Anderson has been working in hard efforts to secure a berth in the league either the Kalamazoo or Bay City club may be sent there. The Union Traction company is behind the proposition to have Anderson in the organization, and it is said that flattering propositions have been tendered the Kalamazoo management.

Kalamazoo Wants to Stay.

However, the Celery City magnates are quite anxious to retain their place in the Interstate and intend to push their fight against the Southern Michigan league before Secretary Farrell, of the National Protective

SPORT

association, who has assured Messrs. Pickell, Koons and Marks that their side of the controversy will be given just and fair treatment. It is indicated that Farrell has gone to a greater extent, and it is claimed that if the Kalamazoo men are able to substantiate their claims that city will go to the Interstate. However the Southern Michigan men were first to forward their funds for protection although Manager Pickell was first to make application for the territory. The controversy will probably be settled within a few days, but until then the Interstate representatives at Kalamazoo will "stand pat." Should they lose Lansing no doubt would be decided upon for people in Michigan's capital want the sport.

Fears are not entertained but what all disputes will be settled up before the date of the season opening, for most managers have their parks and their teams signed. Local interest is high, and Manager Paige says that the outlook is most encouraging.

Says the Saginaw Herald:

Work on the new Saginaw baseball park for the Interstate league is making rapid progress. A visit to the park yesterday clearly indicated the fact that the park will be finished and ready for use within the next four weeks. As the Interstate schedule will not open in Saginaw until May 15 the local management has ample time to get the diamond into perfect shape and complete its ambitious plans for the enlarged grand stand and bleachers.

SIDE VIEW OF SITUATION.

Condition Relative to Interstate League Circuit is Yet Unsettled.

The silver lining which has hung to the clouds which two weeks ago threatened the new Interstate league is still in evidence, though troubles are still being experienced in determining the circuit of the league. While every assurance has been given that Kalamazoo, Mich., will be awarded the Interstate, there is yet doubt, and this city may be forced to capitulate in favor of Lansing, a town of equal importance. The Bay City (Mich.) franchise is also again up for disposal, as "Ted" Sullivan has abandoned his project and was voted out by the directors this week. Two other applicants are after the franchise and a park is ready.

Lima has been definitely determined upon, and Manager Con Strouthers announces he has signed Harry Truby, who will captain the team and play second base. Truby was with Dayton in the old Tri-State when the Old Soldiers won the pennant. He played with Mobile in the Cotton States league last year and was with Strouthers at Augusta, Ga., the year before. Strouthers has also signed Edward McLaughlin, a medical graduate, who pitched for Augusta last year and has a fine record. Five amateurs from the Millcreek bottoms, Cincinnati, are also signed for try-outs in various positions.

"Bud" Lally has signed with Marion, Ind. He was a star on the Evansville team a few years ago and is noted as a hard hitter.

Manager Clarence Jessup, of Marion, announces he will do the bulk of the backstop work for his team, and that he now has fifteen promising and many tried men under contract.

Saginaw has ten men under contract, this week adding Pitchers W. J. Fox and A. L. Watrick. Another pitcher of Michigan note who will be with the team is N. J. Dyer, of Alger, a left-hander. Saginaw will hold down to fifteen men and reduce to twelve after the season opens.

Fred Anthony, a pitcher, and Riley, an outfielder, who made a good showing in the Central league, have signed Fort Wayne contracts. Frank Sealts, the Lima catcher, last year with Canton under Bade Myers, has been transferred to the Dayton Central leaguers, but is endeavoring to secure his release so as to play here.

William Welch, the Lima boy, who held out for better terms, has signed to play third again for Dayton, as has also Henry Vorkamp, another Lima boy, who made a great record as a pitcher during his four years collegiate course in the east.

Fort Wayne has signed Fred Stahl, brother of the Boston American's hard hitting outfielder, Chick Stahl. Fred is also an outfielder. Otto Bedur, with the Independents last year, has also been taken by Fort Wayne.

Work on the park in this city will be started in earnest this week, and the other cities are practically ready, parks either being waiting or in course of preparation. No further meeting of the league magnates is believed necessary as while the schedule was not adopted at Ft. Wayne this week, it was agreed upon and left ready to adoption by a mail vote as soon as Kalamazoo matter is settled. The season will open on May 3 for a series of four games with Kalamazoo at Lima, Flint at Fort Wayne, Bay City at Muncie and Saginaw at Marion.

(Ft. Wayne Sentinel.)

Vice President A. L. Lichtenwalter, who with C. W. Pickell and H. D. Marks, claiming the Kalamazoo franchise in the Interstate league, returned from Syracuse, N. Y., this morning where they had a conference Thursday with Secretary Farrell, of the minor leagues' protective association, and stated that the city is lost for the present as the secretary told them the Southern Michigan league had paid for protection

SPORT

there and it had been granted. He promised, however, that he would try to secure the territory for the Interstate and that unless the Michigan organization takes some step toward building a park and putting in a team by the 3d of May the board will declare the protection forfeited. In the meantime Lansing will be looked up and a team may be put in there by the owners of the Kalamazoo holdings.

Members of the party who presented the matter to the secretary regard it as a certainty that the Southern Michigan is practicing a hold-up and that there will be no effort to place a club in the town. There is no available park other than the one held by Pickell and his associates.

Anderson News: Supt. Baldwin, of the Indiana Union Traction Co., is in earnest in the matter of having Anderson represented in a good ball league this season. Since the company has agreed to build a park on its lines just outside the city limits he is more anxious than ever to see league ball played here. He waited until Thursday for Manager Strouthers, of Lima, O., to report whether he would place a club here, and failing to receive any reply from him, decided to get into the game on his own hook, if possible. So he telegraphed President Dickerson, of the Interstate league, at Grand Rapids, Mich., asking for the Kalamazoo franchise in case the latter could not qualify for it. Mr. Baldwin's idea is to organize a local stock company to take over the franchise. If he fails to get into the Interstate league he will endeavor to get into some other league. No reply has been received from President Dickerson up until noon today. Should there be a blow-up in any of the towns now

SPORT

holding a franchise in this league, it is reasonably certain that Anderson will succeed to the vacancy. Mr. Baldwin prefers a franchise in the Interstate league because the three cities in this state now members of the league are located on the line of the Indiana Union Traction company.

REFUSE LICENSE TO NELSON AND TERRY.

There is no chance of Baiting Nelson and Terry McGovern meeting in a ten-round contest in New Orleans next May or any other time.

The mayor's secretary announced that no permit for a bout between men of their prominence would be issued.

The state law permits ten-round contests before chartered clubs, and the governor and mayor see to it that the law is strictly adhered to.

OFFERS \$1,000 TO REOPEN CASE.

Sale of Mike Kelley's Release from St. Louis to Minneapolis Again Up.

Minneapolis, Minn., April 2.—Secretary R. C. Lydiard, of the Minneapolis baseball club, has sent \$1,000 to President Hermann of the national baseball commission, as a sign of good faith in his request for a rehearing of the Mike Kelley case. If the decision is against the local owners they will buy Kelley's release from St. Louis so that he can captain the team from the field.

HERMAN GETS IN TRIM FOR BRITT BOUT.

"Kid" Herman is at West Baden Springs in preparatory training for his coming bout with Jimmy Britt, which takes place at Los Angeles on May 8.

He is in fine condition and looks fit to enter the ring at any time. From the springs he will go to Los Angeles, where he will finish his course of training.

LOW RATES TO SOUTH DAKOTA

APRIL 3, 10, 17 AND 24, 1906.

To all points in North and South Dakota, on the Chicago, Milwaukee & St. Paul Railway, and to many other points in those states via the

Chicago, Milwaukee & St. Paul Railway.

The successful crops of the last seven years, and the opportunities now offered the farmer, rancher, or merchant in South Dakota should induce every man desiring to better his present situation to investigate the openings offered.

Recent railroad extensions through Lyman County have opened up a large portion of the state heretofore thinly settled because of a lack of railroads.

At present Lyman County offers unusual opportunities for the man looking for a good location. Land is cheap—from \$10 to \$15 an acre—but these prices will not last long. Water is plentiful, and the soil is rich.

Pacific Coast Excursions

To the man who seeks a climate that is mild and a region of widely varied resources, the Pacific Coast offers great opportunities.

California, Oregon and Washington, splendid in their climatic and health-building conditions, offer the opportunity of a life-time for building up a new home.

One-way Colonist tickets are on sale daily, from 5th to April 7th, at the rate of \$37.00 from Chicago, with correspondingly low rates from all points. Daily and Personally Conducted Excursions on which a double berth in a Pullman tourist sleeping car from Chicago costs only \$7.00. All agents sell tickets via the Chicago Union Pacific & North-Western Line.

The train service is of the best—these tickets are good in tourist sleeping cars on the famous Electric-Lighted Los Angeles Limited, less than three days to Southern California without change via The Salt Lake Route, and on the China & Japan Fast Mail, through to San Francisco, Los Angeles and Portland daily.

If you want to know how to reach this land where the climate is mild and where labor is never oppressed by stress of weather, how much it costs to go and what you can do when you get there, send a cents for book, map, time tables and full information.

Amusements

The dramatic interest of the scene in "The County Chairman" is George Ade's greatest play which Maclyn Arbuckle and his brilliant company will present at the Fauror Opera House on tomorrow evening, where Mr. Arbuckle as Jim Mackler, the county chairman, is about to expose the chicanery of Judge Rigby in a corner but a woman's pleadings save the day. This is one of the serious moments of the play. Most of the time the audience is in roars of laughter over the doings of Sassafras Livingston, the colored politician, or Whittaker, the wind mill agent from Chicago.

"The County Chairman" needs no introduction; it had the banner run of the year in New York for a year. It was played to crowded houses for 349 performances. Five weeks in Philadelphia and eight weeks in Boston, and before that had played 111 times in Chicago. The production of "The County Chairman" here with Maclyn Arbuckle and his original cast is the same elaborate one, that characterized its New York and Chicago record breaking runs.

Behind the window pictures of Gertrude Bondhill, who plays the part of Lois in "Sweet Clever" at Fauror Opera House next Wednesday evening, a romance which tends to give especial interest to them, is said to be concealed. The story is told as follows:

Before Miss Bondhill's debut on the stage she was courted by a young and ambitious artist, whom she had known for years. Their courtship was known by the neighbors in the little town in which she lived, and where both Miss Bondhill and the young artist were favorites.

Time brought changes and the world of make believe opened its doors to the young woman's ambition, and she adopted the profession for her career. Being a woman of practical ideas, she saw at once that the courtship which had meant so much must either cease or stand in the light of her aspirations. It ceased. She made her entrance into the new life, and so far as she knew, the young artist has forgotten her.

Her experiences were similar to those of other women who have attained success in the profession. She played small parts for a while, and looked with longing eyes upon the gaily-colored pictures of the star which looked out from the windows. Her rise was rapid though, and, in time, her lithographs were sent out over the country, for she had become a star.

During this time the young artist, who had kept the image of his little girl sweetheart of his boyhood days, endeavored in his heart, had grown in favor and was signing some of the best paintings of the season. He saw a performance of "Sweet Clever" and realizing that the story of the play was like his own, went to his studio and painted a picture of his old love from memory.

The picture was hung on the wall of his den and attracted so much attention that Miss Bondhill heard of it, and mentioned the matter to her manager. The manager, always looking for something good in the way of advertising, called upon the young artist and induced him to lend the paintings from which the lithographs hanging in the downtown windows were made.

"The Wizard of Oz" with Montgomery and Stone and all of the favorites of the original organization, returns here next Thursday evening at Fauror Opera House. The annual visit of "The Wizard" is sure to bring delight to the entire play-going public, young and old. A new edition de luxe of the exhilarating extravaganza is promised. Of course, the Scarecrow and the Tin Woodman are the chief funmakers as of yore, but they will figure in a new environment, enlisting the services of three score clever comedians, agile pantomimists, bewitching songstresses and magnetic show girls.

Montgomery and Stone will exploit a novel satire on the gentle game of football. This droll duo may always be relied upon for an original assortment of whiffles—lutes such as could only emanate from these prolific grotesques.

The Kansas cyclone, the magical transformation of the poppy field

RHEUMATISM

from summer to winter, and the myriad of glimpses of Fairland, will again charm the eye, while new music of the catchy and melodious sort will tickle the ear. One reason for the continued success of "The Wizard of Oz" is because the production is never allowed to deteriorate. There is always something new in this popular success to stimulate and please.

WEAK KIDNEYS MAKE WEAK BODIES.

Kidney Diseases Cause Half the Common Aches and Pains of Lima People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking down.

Overwork, strains, colds and other causes injure the kidneys, and when their activity lessened the whole body suffers from the excess of uric acid which circulates in the blood. Aches and pains and languor and urinary ills come, and there is an over-increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney care.

Doan's Kidney Pills act directly on the kidneys and cure every kidney ill. Lima cures are the proof.

L. Van Pelt, 121 South Union St., Lima, O., says: "Time has only served to increase my appreciation of the value of Doan's Kidney medicine. In a statement made in 1896 I told how this remedy procured at Melville's drug store freed me from attacks of backache, which extended clear up to my shoulder blades, and lameness through the loins. In order that residents of Lima might know that I was sincere I confirmed my testimony in 1898, and I am glad to still further strengthen the statement with evidence which lays to rest any doubt as to its truth."

SOUTH SIDE

ESTING HAPPENINGS IN THIS PART OF THE CITY

Shepard Rudy, one of the oldest residents of Allen county, passed away at his home, 740 South Main street, early Sunday morning. He had been ill but a few days. His age was eighty-three years, one month and fifteen days. Shepard Rudy was born in Miami county, February 16, 1823. He was the son of Jacob and Fannie (Neff) Rudy, who settled in Miami county, O., in 1798. Here a large family of eleven children was reared. Four sons, after they grew to manhood, became residents of Allen county. They were Frederick, Jacob, Aaron and the subject of this sketch. Shepard was married to Annie Stonebarger, of Clark county, June 22, 1847. A few years later he and his young wife moved to Allen county, having purchased a farm of 160 acres south of Westminister. Here they began the life of pioneer settlers. Their farm was nearly all in "the grove." With his own hands our subject cleared away the forests, split the rails, fenced the fields and brought his farm into a fine state of cultivation. He and his wife lived in a small cabin and bore all the hardships and faced all the difficulties that came to those who with nothing but their naked hands would carve their fortunes out of the wilderness. But they did not falter or shrink. Their bodies were strong and their blood was pure. They had hearts of hope and souls of courage. It was not long until excellent improvements gave evidence of the industry with which they applied themselves. The white horse that stands on the hill has this distinction that there has never been carried from it, the dead body of any person but beneath its roof have been born five generations of children. Shepard Rudy and Anna Stonebarger were blessed of God far beyond the ordinary household. They were thankful for all mercies but their chief source of gratitude and joy was their large family. The two first born of the children—boys—died. Another daughter lived to womanhood, became the mother of five children and died. This was the only break in the unity of the happy family until the father was called. The following children with their mother, are residents of this city: Mrs. E. T. Bowdle, Mrs. J. R. Hutchinson, Mrs. H. M. Reed, Miss Mary Rudy and W. E. Rudy; Franklin Rudy lives on the old farm, and J. M. Rudy lives in Sedalia, Mo. The last named is a minister of the gospel.

The father of this large family illustrated through a long life a few fundamental principles. First of all he was absolutely honest. No one needed more than his promise. He never knew what it was to break his word. Second, he was industrious. His strength seemed prodigious and he was always using it in some kind of honest toil. He loved to work and loved all people—except lazy people. These he used as warnings to his growing children. While he was able to be about no sun ever set without it set on an honest task done by his honest hands. In the third place he was temperate in all habits as respects food and drink. He never allowed a son to come to the old home smoking or chewing, much less drinking. These things he regarded as the extremest follies. He left the greatest legacy that a parent can leave a child—a good name. He lives in the hearts of all who know him best as a shining illustration of the noblest work of God—"an honest man."

Shepard Rudy had the name of never turning a hungry man from his door or telling a traveler, who sought shelter, "to drive on." His poetry, deceit, show and egotism he never could tolerate. He served as a Union soldier, but was never in a real engagement. His army experience was a struggle for life in hospitals.

For fifty years he and his noble wife have been professing Christians, members of the M. E. church. At the Old Salem church on next Wednesday afternoon at 2 o'clock the funeral services will be held. Any friends desiring to visit the home and view the body can call at 740 South Main, Tuesday afternoon and evening. Promptly at 11 a. in Wednesday after a short service at the home, the funeral procession will start for the Salem church and burial ground. Rev. C. C. Kennedy, pastor of Grace M. E. church, will preach the funeral.

ANNUAL

Report Filed By Mayor Robb With the Clerk of Council.

RECOMMENDS A DOG POUND AND THE BUILDING OF A WORK HOUSE.

Mayor Robb has filed his annual report with the Clerk of the Council and a total of all the estimates submitted to him by all the departments of the city, excepting the schools, shows that the various departments are of the opinion that it will take the sum of \$228,955.97 to tide them through the year of 1907.

This report will be referred to the Finance Committee and Tax Commissioners by the council this evening and will be used by them in arriving at the rate of taxation for next year and which will be passed on by ordinance in the coming May or June.

The report submitted is itemized as follows:

Executive Officers, Legal Advertising, Election Expenses, etc. \$ 14,385.00

Health Department 6,215.00

Board of Public Safety 650.00

Fire Alarm System and Police Telephones 646.00

Police Department 18,129.00

Board of Public Service 24,927.00

Engineering Department 4,370.00

Outdoor Relief Department 1,220.00

Street Paving, Grading, etc. 7,000.00

Street Repaving and Cleaning 23,000.00

Garbage disposal 600.00

Sewers 8,938.00

City Building 400.00

Sinking Fund bonds and interest \$2,318.97

Sidewalks 2,500.00

Street Lighting 22,600.00

Library Association 3,000.00

Hospital Society 2,000.00

Total \$228,955.97

In comparing this year's report with that of last year it is found that this year's is \$20,000 less than last, the decrease being in the amount needed in the sinking fund, which was \$104,534.54 last year.

Last year's report called for \$249,002.54, but after the Finance Committee and Tax Commissioners got through with it, a tax levying ordinance was passed which raised but \$182,000.

The Mayor also submits some recommendations concerning the welfare of the municipality, in the first of which he frankly calls the attention of the Council to the imperative need of codifying and revising the city ordinances which he considers "obsolete," "loosely drawn" and in no wise fitting with the new code.

He wants an attorney of unquestioned ability and experience, especially in criminal practice, to do the work.

He also wants the council to "define by ordinance the mutual right and obligations that should exist between the city and the interurban lines coming in over the city railway's franchise."

His recommendation for a work house is again renewed.

"The dog having for some years been a serious menace to the peace and good order of society, I would recommend an ordinance providing for a dog pound, that dogs found running at large, be captured and held 24 hours for redemption; that one dollar be charged for the release of all dogs so taken up, in addition to procuring a tag, and all dogs not redeemed to be shot or chloroformed. I believe that if this ordinance provided for the payment of a reward of 25 cents for each male dog and 50 cents for each female dog so found running at large and delivered to the pound by any person, there would be 500 men and boys doing police duty in that line at once, thus solving the difficult question of procuring an officer for that duty."

HAPPY THOUGHT Chewing Tobacco is as much superior to the other kind as a Kentucky thoroughbred is to a jackass.

If I hadn't been raised on tobacco, I wouldn't pose as an expert. But, neighbor, tobacco has been to me what flowers are to most folks. So when I tell you that

HAPPY THOUGHT

Ribbon-Cut Chewing Tobacco

is the finest chewing tobacco made, you needn't look to see if there is a sign on my back.

I've chewed tobacco for forty years. I never found what I wanted until I struck **HAPPY THOUGHT**. In the brotherhood of tobacco chewers fellow feeling is our only law.

I hope to enjoy the rare soft flavor of **HAPPY THOUGHT** for the rest of my life. You can do the same.

RAILROADS

WRECKERS OF F. & P. M. ROAD SCORED.

INSURANCE METHODS NO MORE NEFARIOUS THAN THEIR DECLARATIONS COMMITTEE.

No One At Meeting to Answer Stockholders Alliance of Shareholders' Protective Committee With Morgan Intimidated.

New York, April 2.—An echo of the Cincinnati, Hamilton and Dayton scandal that came to light when he Erie last November repudiated its purchase of the property, and forced J. P. Morgan & Co. to take it back, has been heard in Wall street.

Stephen H. Gale, of Exeter, N. H., and Clinton Weedon, of Providence, R. I., who went to the recent meeting of the Erie Marquette Railroad in Detroit, Mich., to represent large minority stockholding interests, made public their report denouncing the methods pursued by the management of the property.

No Explanations Made. They say in it that the exposed insurance methods are no more nefarious than those used by prominent financiers to wreck the Erie Marquette property by its lease to the Cincinnati, Hamilton and Dayton; that at the recent meeting the president and vice-president were absent, not a director was present, and that no one was there to answer questions of stockholders concerning the transaction which has brought the company to its present condition.

The printed annual report for 1905 made no reference to a lease of the road on March 1, 1905, to the Cincinnati, Hamilton and Dayton, and no allusion to the additional fixed charges and interest the company assumed in that year. No explanation was made of a deficit of \$22,430.48 in a property, which, until it fell into the hands of the Wall street wreckers, had a big annual surplus and earned and paid annual dividends of 4 per cent.

Attack "Protective Committee." The report loudly intimates that the Morgan interest has an ally in the so-called Shareholders' Protective Committee, consisting of Nathaniel Thayer, William W. Crapo, Mark T. Cox, George H. Norman and Francis R. Hart, appointed to investigate the scandal and report at the May meeting.

Messrs. Thayer, Cox, and Norman, the report says, "were directors of the Erie Marquette Railroad Company when Frederick H. Prince, of Boston, was president, and when the so-called 'expansion policy' which Mr. Crapo says 'has proved disastrous' was inaugurated. We protested against the selection of this committee on the ground that some of its members had been directors of the company during the time some of the transactions which should be investigated had occurred, and ought not to be chosen to investigate and report upon their own acts or the acts of a board of directors of which they had been members. We recommended continuing the association we have formed, standing firmly together, and the commencement at once of

an investigation into the books and affairs of the company to determine, so far as practicable, the real value of our shares, and if any legal remedy can be had for the injury we have suffered, or if our property can be relieved from unjust burdens it is now forced to carry."

Stephen H. Gale is a millionaire shoe manufacturer of Exeter, N. H. Clinton Weedon is one of the wealthiest men in Providence. Both are large stockholders in the road.

Demand For Steel Cars

Since 1900 seventy postal clerks, substitutes and weighers have been killed in railroad wrecks while on duty, 444 have been injured seriously and 1,663 have been hurt slightly. The clerks in the railway postoffice service are among the most expert employees of the government and the department is seeking constantly to improve the conditions under which they work, lessen the dangers that surround them and protect their lives and the valuable property in their care.

In 1893 the government adopted specifications for the construction of mail cars requiring them to be heavier and more substantial than those then in use. In May, 1904, these specifications were revised and further strengthening of the cars was required. The railroad companies have also been experimenting with improved rolling stock, the Erie building an all-steel car and the New York, New Haven and Hartford two; the Pennsylvania road is drafting plans for an all-steel car and the Santa Fe company, has contracted for thirty-nine steel-sheeted cars with underframes and floorings of steel, the floors to be finished with cement, felt and wood.

All these cars are much heavier than those previously in use. Under the department specifications of 1904 a full sixty-foot car weighs 100,000 pounds, or 20,000 pounds more than one built on the plans adopted in 1893. The clerks prefer the larger, heavier cars, which they believe to be safer in accidents than the others. Yet in a wreck on a Texas railway a fifty-foot car telescoped a sixty-foot car or later

build and much greater weight and was itself practically undamaged. One of the steel cars now in use has been in an accident. The postal clerks have great faith in them, feeling that they are practically indestructible and almost sure to preserve the lives of all who are in them. It is likely that the steel mail cars will some day be required by the government and when they are it is not improbable that the public will demand a substitution of metal cars or cars so heavily reinforced with steel as to be practically the same thing for all wooden passenger coaches.

Standard Oil Re-Divides Ohio.

Cincinnati, Ohio, April 2.—While Vice President Crittenden T. Colings and other high officials of the Standard Oil company of Kentucky, would not talk about the story that that corporation has abandoned Ohio as a business field, it is announced that Saturday was the last business day of the Standard Oil Company of Kentucky in this state.

All the assets of the company in Ohio, including property, business and good will, have been sold in their entirety to the Standard Oil Company of Ohio, the Cleveland company, the transfer to take effect April 1.

This transfer is said to represent assets conservatively estimated to be worth millions of dollars.

The tremendous agitation which has been going on throughout this country against the Standard Oil Company and the attacks against its business methods is alone responsible for the move.

Friday Night By Several Business Men of the City Who are Sore Because of the Slot Machine Order.

The Names of the Young Ladies Secured Will Be Submitted to the Next Grand Jury.

A charge of gambling is to be preferred against the society ladies of Lima, and just because a few disgruntled fellows are sore—sore because of the banishment of the slot machines.

At a meeting held last Friday night plans were formulated to put a stop to every kind of gambling in the city, no matter how harmless, and the bridge whist and euchre parties will receive attention first. It is the intention of this committee to refer to the society columns of the local newspapers and in every mention made of a card club meeting where there was a prize given, the ladies in attendance will be subpoenaed to appear before the grand jury.

Season's Schedule of Interstate Baseball League.

The first correct schedule of the new Interstate Base ball league, as will no doubt be officially adopted by the various managers who are soon to vote on the matter by mail, has been given out. After deciding to change the date for the opening of

the season from April 26 to May 3, at their meeting in Fort Wayne last Monday, a delay in the adoption of one of the many schedules offered was necessitated. However, one was selected, and it was given by consent that as soon as the dates had been

properly changed the managers would vote its adoption through correspondence instead of holding a meeting. After several hours tedious and careful work the schedule was revised and is published correctly this afternoon for the first time. When

this schedule was shown to Manager Paige yesterday he said that it was correct in its entirety. It may be, however, that Kalamazoo will yet be awarded to the Interstate, and in that event Lansing will not become a member of the league.

Owing to the controversy over the Kalamazoo territory and the selection of Lansing as a substitute in case Secretary Farrell should decide in favor of the Southern Michigan organization, the name of Michigan's capital is used instead of Kalamazoo.

Spring Models in Corsets.

It is almost proverbial that it is not the woman with the best figure but the one with the best corsetier, whose form is most admired. It is the corsetier's art to know models and to fit them to the proper figures.

Then if the corset fulfills its part, wonders may be performed.

As a corset of the highest type, we recommend the La Marguerite model—it has all the niceties of workmanship and the recognized materials of first merit.

The spring models—especially designed for the New Spring Gowns, are here
